# The Collection

HAND-EMBROIDERED VISCOSE-SILK ART · ONE OF A KIND

ABOUT THE STUDIO

# Thread-painted by hand. One piece at a time.

---

At Aruha Atelier, every tapestry and cushion cover begins with a bare stretch of viscose silk and a conversation about what a wall should feel like. Our artisans — scattered across weaving towns from Rajasthan to Uttar Pradesh — work the thread stitch by stitch, building colour and texture over weeks until an image emerges from the cloth. There are no shortcuts and no duplicates: each piece is genuinely one of a kind.

We work exclusively in viscose-silk thread, chosen for the way it catches light — shifting from matte to luminous as you move around the room. The motifs range from Cubist portraits and abstract compositions to folk botanicals and Mughal-inspired arches, all interpreted through the hands of the person making them. That human mark is the whole point.
